PROFESSIONAL SUMMARY:

Threat Intelligence Analyst with 8+ years of experience in Cyber Threat Intelligence (CTI) operations, threat hunting, and intelligence-driven security programs for global clients. Proven expertise in tracking APT groups, ransomware campaigns, cybercriminal ecosystems, and emerging threats while delivering strategic, operational, and tactical intelligence. Experienced in building and mentoring high-performing teams, managing Threat Intelligence Platforms, integrating intelligence into security operations, and providing executive-level threat briefings that drive informed risk-based decisions

EXPERIENCE

Apr-2025- Current

Technical Lead, Coforge Ltd.

- Lead and manage a Cyber Threat Intelligence (CTI) team responsible for delivering strategic, operational, and tactical intelligence services to multiple global clients across diverse sectors.
- Oversee the complete intelligence lifecycle, including requirements gathering, intelligence collection, analysis, production, dissemination, and stakeholder feedback.
- Track and analyze APT groups, ransomware operations, cybercrime campaigns, emerging vulnerabilities, and geopolitical developments to assess organizational risk exposure.
- Produce executive threat briefings, threat advisories, intelligence reports, and actionable recommendations for security leadership and technical stakeholders.
- Manage Threat Intelligence Platforms including Recorded Future and Brandefense, overseeing watchlists, alerts, intelligence feeds, and platform integrations.
- Collaborate with SOC, Incident Response, Vulnerability Management, and Security Engineering teams to improve threat visibility, accelerate response activities, and strengthen security posture.

Feb 2023 – Apr-2025

GSOC Shift Lead, KPMG LLP

- Cyber Security Analyst with extensive practical experience in identification and understanding of cyber threats such as viruses, worms, bots, rootkits, ransomware, adware's and Trojans.

- Monitoring and analyzing potential cyber threats, incidents, third party data breaches, vulnerabilities from multiple sources to identify potential impact on the organization.
- Activity monitoring various threats and cyber events from threat intelligence sources including open source, social media and dark web forums to identify trending threats and their potential impact to the firm.
- Creating and managing threat intelligence reports and briefings, and delivering them to relevant stakeholders within the organization to provide valuable insights on potential cyber threats and to facilitate effective decision making for the organization.
- Proactive in preventing and containing malware infestation to protect network software and hardware integrity as well as proprietary data.
- Strong knowledge of common tactics, techniques, and procedures (TTP) used by cyber adversaries and attributing to threat actor(s) or APT group.
- Have knowledge of static and dynamic malware analysis.
- Assist with the identification, creation and refinement of the team processes and procedures.

Feb 2018 – Jan 2023

CYBER THREAT INTELLIGENCE ANALYST, INFOSYS LIMITED

- Performing Cyber Threat Intelligence operations including intelligence collection (IOCs), Indicator of Attacks (IOAs), indicator of Behavior (IOBs) tracking threat actors, identifying and tracking malicious infrastructure. And analyzing those indicators (IOCs) in Splunk.
- Researching, Analyzing, and gathering data or information from a variety of open sources (OSINT) and then creating a plan of action based on intelligence.
- Collecting information about Internet-based malware- related criminal activities, threat actors and their campaigns, the latest system/software vulnerabilities, & exploits and enriching the same in TIP.
- Analyzing indicators using Security Information and Event Management (SIEM) tool and responding to infrastructure threats and vulnerabilities.
- Producing detailed intelligence analysis reports on Threat Advisory, Threat Adversary, Vulnerabilities including zero-day to our customers.
- Using the knowledge of MITRE ATT&CK framework, Lockheed Martin Cyber Kill Chain framework to be identifying various APT groups and the TTP's.

SKILLS

Threat Intelligence

- Recorded Future, Brandefense, ThreatConnect, Digital Shadows, MISP, OSINT.

Security Operations

- Microsoft Sentinel, Microsoft Defender for Endpoint (MDE), Microsoft Defender for Office 365 (MDO).

Malware Analysis

- Any.Run, Threat Grid, Flare VM, PeStudio, Procmon, Sysinternals Suite, Wireshark

Security Tools

- Proofpoint, ServiceNow, Power BI, Tenable, Intune

ACHIEVEMENT

- Led a team of 3 CTI analysts supporting multiple global clients across Finance, FMCG and Manufacturing sectors.
- Delivered 500+ intelligence advisories and executive threat briefings annually.
- Improved threat detection coverage through intelligence-driven use cases mapped to MITRE ATT&CK.
- Established technology watchlists and intelligence automation workflows using Recorded Future and threat intelligence integrations.
- Supported investigations involving phishing campaigns, malwares and emerging vulnerabilities

EDUCATION

Bachelor of Engineering: Mechanical Engineering(08/2013 - 06/2017)

CERTIFICATIONS

- MAD 20 MITRE ATT&CK Certifications
- AZ-900 Microsoft Azure Fundamentals
- AI 900 Azure AI Fundamentals
- DP 900 Azure Data Fundamentals
- PL 900 Power Platform Fundamentals
